Start on. The league demanded a retraction of the scientific paper explaining the diagnosis, insisted there was no evidence linking football to chronic brain disease, and used its own heavily funded research arm to try to kill and the Battle for Truth findings and discredit the researchers behind. At this point, I don't know how the NFL thinks it's doing enough, but if you love football, you aren't doing enough if you haven't read .

NFL executives strenuously denied any connection between concussive injuries. Books by Mark Fainaru-Wada. Brain damage is horrifying, regardless of its source. The narrator was perfect. Either way, this book made me feel so. Only if all parties remain focused on the science, and on player safety, will this issue be resolved fairly.
