About Us Help Center. AMPARO (Spanish Edition) comprises five sub-competences and activates a series of psycho-physiological components : Bilingual sub-competence: predominantly procedural knowledge required to be able to communicate between two languages; Extralinguistic sub-competence: predominantly declarative knowledge, both implicit and explicit, about the world in general, and field-specific; Knowledge of Translation sub-competence: predominantly declarative knowledge, both AMPARO (Spanish Edition) and explicit, about translation and aspects of the profession; Instrumental sub-competence: predominantly procedural knowledge related to the use of documentation resources and information and communication technologies applied to translation; Strategic sub-competence: procedural knowledge required to ensure the efficacy of the translation process and to solve problems arising. As TC is acquired, there is an increase in the effective combined use of internal support cognitive resources and different types of external resources. UnitedNationsUN.TheyarerelatedtotheExtralinguisticsub-competencea My aim in this paper has been to present the AMPARO (Spanish Edition) aspects of competence-based translator training, dealing with matters related to Translation Competence and its acquisition, and to translation teaching. Teaching units are

organized into different tasks that prepare students for one or more final tasks. We'll show you relevant advertising. Views Read Edit View history. They are related to the Knowledge of Translation sub-competence knowledge of aspects of professional practice ; Instrumental competences: managing documentary resources and an array of tools to solve translation problems.
